The Brazilian Orienteering Confederation (CBO), the Orienteering Federation of Rio Grande do Norte (FORN) and its affiliated clubs have the honour of inviting the "orienteering family" to participate in the 28th Brazilian Orienteering Championship, to be held in Touros-RN, from 22 to 25 April 2027, an event valid for the IOF World Ranking Event (WRE) of the International Orienteering Federation (IOF).

TOUROS-RN

PRESIDENT'S MESSAGE

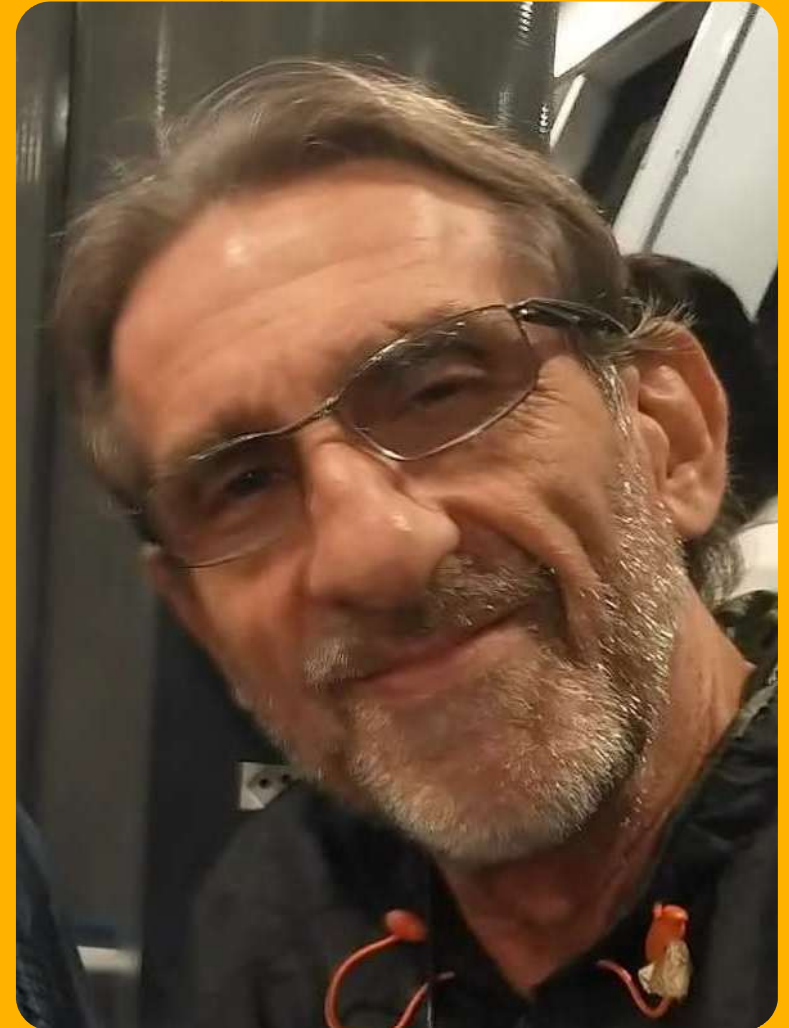

Deciding to host an event of the scale of CamBOR was only possible because we have a working team that is fully capable, experienced, cohesive, and committed to the proposed mission.

Added to the technical factors of the chosen areas and the numerous tourist attractions of the City of Touros, the host of the event, with its beaches, shallow reefs, and history, we are certain of holding an event worthy of the orienteers who will be there.

Welcome!

Oscar Moritz

THE CITY OF TOUROS

Touros, in Rio Grande do Norte, is known as the "Corner of Brazil" or "Elbow of Brazil", and is located in the region where the Brazilian coastline curves, about 85 km from Natal.

The city is famous for housing the largest lighthouse in Latin America, the Calcanhar Lighthouse, and has as tourist attractions the Kilometre Zero Marker of the BR-101 highway and the Touros Marker (the original is exhibited at the Câmara Cascudo Museum, in Natal/RN), and offers tranquil beaches with coconut groves and natural pools, such as Perobas.

PEROBAS BEACH (TOUROS/RN)

A place where the sea will embrace you with calm and crystalline waters! This is Perobas, an incredible place that enchants with its simple and natural beauty with natural pools that emerge during low tide.

Perobas is far from the hustle and bustle, a condition that makes it the ideal place for those seeking peace, wanting to relax and recharge their energies, and contemplate nature in a privileged environment, located at the vertex of the Brazilian Northeast.
